

PROFIRE

IGNITION COIL TRANSITION

WE HEARD YOU.

External Ignition Coil Change

Last year, we provided notice that we were migrating from our GEN 1.0 Ignition Coil (legacy), to our GEN 2.0 Ignition Coil (see images below).

GEN 1.0 IGNITION COIL

GEN 2.0 IGNITION COIL

GEN 1.0 Relaunch – Dec. 2016

Based on customer feedback as well as increased demand for all Profire Burner Management solutions we will be relaunching our GEN 1.0 Ignition coil. *This change will be effective Dec. 2016.*

GEN 1.0 USED FOR ALL EXTERNAL APPLICATIONS

As of December 2016, the GEN 1.0 ignition coil will be used for all external ignition coil applications.

GEN 2.0 USED FOR ALL APPLICATIONS USING CLASS 1, DIV 1 EPX ENCLOSURE

We will continue to use the GEN 2.0 ignition coil for all applications requiring the use of the Profire EPX Enclosure (Class 1, Div 1).
