PROFIRE ENERGY, INC. AND SUBSIDIARY
Notes to the Condensed Consolidated Financial Statements
June 30, 2014 and March 31, 2014

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at June 30, 2014 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company's March 31, 2014 audited financial statements. The results of operations for the periods ended June 30, 2014 and 2013 are not necessarily indicative of the operating results for the full years.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and all debt securities with an original maturity of 90 days or less. As of June 30, 2014 and March 31, 2014, bank balances included \$4,570,088 and \$4,456,674, respectively, held by the Company's banks. As of March 31, 2014 \$3,242,159 was guaranteed by the Province of Alberta, Canada and \$250,000 was guaranteed by the FDIC. As of June 30, 2014 \$2,818,430 USD, was guaranteed by the Province of Alberta, Canada and \$250,000 USD guaranteed by the FDIC.

Accounts Receivable

Receivables from the sale of goods and services are stated at net realizable value. This value includes an appropriate allowance for estimated uncollectible accounts. The allowance is calculated based on past collectability and customer relationships. The Company recorded an allowance for doubtful accounts of \$124,078 and \$122,390 as of June 30, 2014 and March 31, 2014, respectively.

Inventory

In accordance with ASC 330, the Company's inventory is valued at the lower of cost (the purchase price, including additional fees) or market based on using the entire value of inventory. Inventories are determined based on the average cost basis. As of June 30, 2014 and March 31 2014 inventory consisted of the following:

	June 30, 2014	March 31, 2014
Raw materials	\$ -	\$ -
Finished goods	7,045,484	6,665,489
Work in process	-	-
Subtotal	7,045,484	6,665,489
Reserve for obsolescence	(184,729)	(85,631)
Total	<u>\$ 6,860,755</u>	<u>6,579,858</u>

PROFIRE ENERGY, INC. AND SUBSIDIARY
Notes to the Condensed Consolidated Financial Statements
June 30, 2014 and March 31, 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition

The Company records sales when a firm sales agreement is in place, delivery has occurred or services have been rendered, and collectability of the fixed or determinable sales price is reasonably assured. If customer acceptance of products is not assured, the Company records sales only upon formal customer acceptance.

Income Taxes

The Company is subject to US and Canadian income taxes, respectively, on its US and Canadian income with a credit provided for foreign taxes paid. The combined effective rates of income tax expense (benefit) in the US and Canada are, respectively, 35% and 28% for the three months ended June 30, 2014 and 2013, respectively.

Basic Earnings Per Share

The computation of basic earnings per share of common stock is based on the weighted average number of shares outstanding during the periods presented. The computation of fully diluted earnings per share includes common stock equivalents outstanding at the balance sheet date. The Company had 657,359 and 477,737 stock options included in the fully diluted earnings per share as of June 30, 2014 and 2013, respectively. The Company uses the treasury stock method to calculate the dilutive effects of stock options and warrants.

	For the Three Months Ended	
	June 30,	
	2014	2013
Net income applicable to common shareholders	\$ 2,220,706	\$ 1,613,984
Weighted average shares outstanding	47,922,059	45,250,000
Weighted average fully diluted shares outstanding	48,579,418	45,727,737
Basic earnings per share	\$ 0.05	\$ 0.04
Fully diluted earnings per share	\$ 0.05	\$ 0.04

Foreign Currency and Comprehensive Income

The Company's functional currencies are the United States dollar (USD) and the Canadian dollar (CAD), and its reporting currency is USD. All transactions initiated in other currencies are translated into the reporting currency in accordance with ASC830-20, "Foreign Currency Matters – Foreign Currency Transactions". The period-end exchange rates of CAD to USD of 0.937033 and 0.905186 were used to convert the Company's June 30, 2014 and March 31, 2014 balance sheets, respectively, and the statements of operations used weighted average rates of CAD to USD 0.917096 and 0.982898 for the three months ended June 30, 2014 and 2013, respectively. All amounts in the financial statements and footnotes are presumed to be stated in USD, unless otherwise identified. Foreign currency translation gains or losses as a result of fluctuations in the exchange rates are reflected in the Statement of Operations and Other Comprehensive Income.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had and is not expected to have, a material impact on the Company's financial position or statements.

PROFIRE ENERGY, INC. AND SUBSIDIARY
Notes to the Condensed Consolidated Financial Statements
June 30, 2014 and March 31, 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock-Based Compensation

The Company follows the provisions of ASC 718, “Share-Based Payment.” which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. The Company uses the Black-Scholes pricing model for determining the fair value of stock based compensation.

NOTE 3 – SEGMENT INFORMATION

The Company operates in the United States and Canada. Segment information for these geographic areas is as follows:

	For the Three Months Ended June 30,	
	2014	2013
Sales		
Canada	\$ 4,592,982	\$ 2,798,362
United States	8,551,852	4,383,218
Total	<u>\$ 13,144,834</u>	<u>\$ 7,181,580</u>
	June 30,	March 31,
	2014	2014
Long-lived assests		
Canada	\$ 1,452,059	\$ 1,392,577
United States	3,946,845	2,993,304
Total	<u>\$ 5,398,904</u>	<u>\$ 4,385,881</u>

NOTE 4 – STOCK BASED COMPENSATION

On May 1, 2014, the Company issued a total of 133,900 stock purchase options exercisable for the purchase of its common stock at \$4.03 per share. The options were issued to key employees. The options vest 1/5 each year for 5 years. The Company estimates the fair value of each stock award at the grant date by using the Black-Scholes option pricing model. The following weighted average assumptions were used for grants as of May 1, 2014: dividend yield of zero percent; expected volatility of 149%; risk-free interest rates of 0.82% and expected life of 3.5 years.

On May 1, 2014, the Company issued a total of 180,000 shares of restricted stock to key employees. The shares vest 1/5 each year for 5 years. The Company estimates the fair value of the restricted shares at their intrinsic value at time of granting.

The Company recognized \$351,364 and \$63,437 in expense during quarters ended June 30, 2014 and 2013, respectively, for the fair value of all granted stock based compensation.

Non-vested at June 30, 2014	<u>180,000</u>	<u>\$ 4.03</u>

NOTE 5 – SUBSEQUENT EVENTS

On July 2, 2014, we sold 4,500,000 shares of our common stock at the price of \$4.00 per share, for an aggregate sale price of \$18,000,000. We paid \$1,260,000 in underwriting discounts and commissions in connection with the offering of the shares sold on our behalf. We also incurred approximately \$310,000 of other offering expenses. The net offering proceeds, after deducting underwriting discounts and commissions and offering expenses paid by us, were approximately \$16,430,000.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion summarizes the significant factors affecting our consolidated operating results, financial condition, liquidity and capital resources during the three month periods ended June 30, 2014 and 2013. For a complete understanding, this Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the *Financial Statements* and *Notes to the Financial Statements* contained in this quarterly report on Form 10-Q and our annual report on Form 10-K for the year ended March 31, 2014.

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are based on management's beliefs and assumptions and on information currently available to management. For this purpose any statement contained in this report that is not a statement of historical fact may be deemed to be forward-looking, including, but not limited to, statements relating to our future actions, intentions, plans, strategies, objectives, results of operations, cash flows and the adequacy of or need to seek additional capital resources and liquidity. Without limiting the foregoing, words such as "may", "should", "expect", "project", "plan", "anticipate", "believe", "estimate", "intend", "budget", "forecast", "predict", "potential", "continue", "should", "could", "will" or comparable terminology or the negative of such terms are intended to identify forward-looking statements, however, the absence of these words does not necessarily mean that a statement is not forward-looking. These statements by their nature involve known and unknown risks and uncertainties and other factors that may cause actual results and outcomes to differ materially depending on a variety of factors, many of which are not within our control. Such factors include, but are not limited to, economic conditions generally and in the industry in which we and our customers participate; competition within our industry; legislative requirements or changes which could render our products or services less competitive or obsolete; our failure to successfully develop new products and/or services or to anticipate current or prospective customers' needs; price increases; employee limitations; or delays, reductions, or cancellations of contracts we have previously entered into; sufficiency of working capital, capital resources and liquidity and other factors detailed herein and in our other filings with the United States Securities and Exchange Commission (the "SEC" or "Commission"). Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those indicated.

Forward-looking statements are predictions and not guarantees of future performance or events. Forward-looking statements are based on current industry, financial and economic information which we have assessed but which by its nature is dynamic and subject to rapid and possibly abrupt changes. Our actual results could differ materially from those stated or implied by such forward-looking statements due to risks and uncertainties associated with our business. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy and completeness of these forward-looking statements and we hereby qualify all our forward-looking statements by these cautionary statements.

These forward-looking statements speak only as of their dates and should not be unduly relied upon. We undertake no obligation to amend this report or revise publicly these forward-looking statements (other than pursuant to reporting obligations imposed on registrants pursuant to the Exchange Act) to reflect subsequent events or circumstances, whether as the result of new information, future events or otherwise.

The following discussion should be read in conjunction with our financial statements and the related notes contained elsewhere in this report and in our other filings with the Commission.

Recent Developments

On July 2, 2014, we sold 4,500,000 shares of our common stock at the price of \$4.00 per share, for an aggregate sale price of \$18,000,000. The net offering proceeds to us, after deducting underwriting discounts and commissions and offering expenses paid by us, was approximately \$16,430,000.

The underwriters had a 45-day option to acquire an additional 900,000 shares of common stock from the selling stockholders at a price of \$4.00 per share, for an aggregate sale price of \$3,600,000, which they exercised on July 28, 2014. Following the sale of these shares, the offering terminated.

We expect to use the proceeds from this offering for expansion of our sales and service team to match the demand for our product in regions where recent legislation passed, requiring the use of our technology, and for other working capital purposes. We may also use a portion of the net proceeds to fund possible investments in, or acquisitions of, complementary businesses, solutions or technologies. We have no current agreements or commitments with respect to any investment or acquisition. In addition, the amount and timing of what we actually spend for these purposes may vary significantly and will depend on a number of factors, including our future revenue and cash generated by operations and other factors. Accordingly, our management will have discretion and flexibility in applying the net proceeds of this offering. Pending any uses, as described above, we intend to invest the net proceeds in high quality, investment grade, short-term fixed income instruments which include corporate, financial institution, federal agency or U.S. government obligations.

Overview

We design, assemble, install, service, and sell oilfield combustion management technologies and related products such as burner management systems, flare ignitions systems, fuel train components, secondary airplates, and valve actuators. Our products and services aid oil and natural gas producers in the safe and efficient production and transportation of oil and natural gas.

In the oil and natural gas industry there are numerous demands for heat generation and control. Oilfield vessels of all kinds, including line-heaters, dehydrators, separators, treaters, amine reboilers, free-water knockout systems, etc. require sources of heat to satisfy their various functions, which is provided by a burner flame inside the vessel. This burner flame is integral to the proper function of the oilfield vessel because these vessels use the flame's heat to help separate, store, transport and purify oil and gas (or even water). The viscosity of the oil and gas is critical to a number of oilfield processes, and is directly affected by the heat provided by the burner flame inside the vessel.

Our products help ignite, monitor, and manage this burner flame, reducing the need for employee interaction with the burner, such as for re-ignition or temperature monitoring. As a result, oil and gas producers can achieve increased safety, greater operational efficiencies, and improved compliance with changing industry regulations. We believe there is a growing trend in the oil and gas industry toward process automation, and burner management automation fits squarely within this trend. Also, there is an increasing need for skilled combustion technicians. In addition to selling products, we train and dispatch combustion technicians to address this industry need in both Canada and throughout the United States.

Results of Operations

Comparison of the three months ended June 30, 2014 and 2013

Total Revenues

Total revenues during the quarter ended June 30, 2014 increased \$5,963,254, or 83%, compared to the quarter ended June 30, 2013. This increase was principally attributable to increased sales of goods, net, as well as increased sales of services, net.

Sales of Goods, Net

We realized an increase of \$5,477,551, or 80%, in sales of goods, net during the three months ended June 30, 2014 compared to the three months ended June 30, 2013. This increase was primarily due to improved sales execution, and increased efficacy in a number of growing sales territories including Texas, Colorado, and Pennsylvania. We expect that our quarterly revenues will continue to grow year-over-year as our sales team executes on its sales strategy.

Sales of Services, Net

During the three months ended June 30, 2014 we realized an increase of \$485,703, or 142%, in sales of services, net. We are beginning to experience increasing service revenues as a result of leveraging new service personnel and expansion of new service territories. We anticipate service revenues in our Utah, Texas, and Pennsylvania offices will continue to expand in upcoming quarters. While the primary purpose of our service team is to support product sales, our service team also provides a number of auxiliary services for our customers, providing an additional revenue stream.

Total Cost of Goods Sold

As a percentage of total revenues, total cost of goods increased slightly to 43% during the quarter ended June 30, 2014, compared to 42% during the quarter ended June 30, 2013. This increase is attributable to an increase in cost of goods sold-products, as a percentage of revenues.

Cost of Goods Sold-Products

During the quarter ended June 30, 2014 cost of goods sold-products increased \$2,343,147, or 86%, compared to the quarter ended June 30, 2013 as a result of increased sales. However, as a percentage of revenues from product sales, cost of goods sold-products was almost unchanged, increasing from 40% to 41%. We anticipate that, as a percentage of revenues from product sales, future cost of goods sold-product will continue to approximate historical levels, or about 40%.

Cost of Goods Sold-Services

Cost of goods sold-services increased \$371,910, or 139%, during the quarter ended June 30, 2014 compared to the quarter ended June 30, 2013 as a result of increased sales of service. As a percentage of service revenues, cost of goods sold-service decreased from 78% to 77%.

Gross Profit

Because the percentage increase in total revenue was surpassed by the increase in cost of goods sold, gross profit slightly decreased from 58% to 57% of total revenues during the quarter ended June 30, 2014.

Total Operating Expenses

Our total operating expenses increased \$2,239,253, or 122%, during the three months ended June 30, 2014 compared to the three months ended June 30, 2013. As a percentage of total revenues, total operating expenses increased from 26% to 31%. This increase was largely attributable to increases in general and administrative expenses and payroll expenses.

General and Administrative Expenses

During the three months ended June 30, 2014 general and administrative expenses increased by \$1,569,946, or 187%. As a percentage of total operating expenses, general and administrative expenses increased from 46% to 59%. This increase was due to the purchase of equipment for our expanding service team, commissions paid to our sales team, expense related to the issuance and vesting of stock options, and increases in professional fees.

Research and Development

During the quarter ended June 30, 2014 research and developments expenses were \$271,227 compared to \$95,930 during the quarter ended June 30, 2013. As a percentage of total operating expenses, research and development expenses increased from 5% to 7%. This increase was due to the acceleration of multiple projects, as well as the expansion of the department's personnel (and the allocation to research and development expense of the payroll for the same).

Payroll Expenses

We experienced a \$430,623, or 52%, increase in payroll expenses in the quarter ended June 30, 2014 compared to quarter ended June 30, 2013. This increase was primarily the result of increased hiring, particularly in our Utah, Texas, and Pennsylvania offices during the past fiscal year. As a percentage of total Operating Expenses, payroll decreased from 46% to 31%.

Depreciation Expense

Depreciation expense increased \$63,387, or 103%, during the quarter ended June 30, 2014 compared to the quarter ended June 30, 2013. This increase in depreciation expense is primarily due to the purchase of multiple fixed assets including additional warehouse space and additional sales and service vehicles in the last fiscal year, which result in a higher ongoing depreciation expense. As a percentage of total operating expenses, however, depreciation remained the same at 3%.

Total Other Income (Expense)

During the three months ended June 30, 2014 we realized total other income of \$3,358 compared to total other expense of \$9,051 for the three months ended June 30, 2013. During the quarter ended June 30, 2014, we did not realize any interest expense, however, we realized interest income of \$237 and rental income of \$3,121. By comparison, during the quarter ended June 30, 2013, we realized interest expense of \$10,467, interest income of \$801, and rental income of \$615.

Net Income Before Income Taxes

The 83% increase we realized in total revenues, the 91% increase in total cost of goods sold and the 122% increase in total operating expenses combined to result in an increase in net income before income taxes during the quarter ended June 30, 2014 to \$3,369,748 compared to net income before income taxes of \$2,348,395 during the quarter ended June 30, 2013. As a percentage of total revenues, net income before income taxes represented 26% of total revenues, compared to 33% during the prior year comparable quarter.

Income Tax Expense

We recognized income tax expense of \$1,149,042 during the three months ended June 30, 2014 compared to \$734,411 during the three months ended June 30, 2013 as a result of the significant increase in net income before income taxes. We anticipate our income tax obligations will typically follow a similar trend as our net income or loss before income taxes.

Foreign Currency Translation Gain (Loss)

Our consolidated financial statements are presented in U.S. dollars. Our functional currencies are the United States dollar and the Canadian dollar. Transactions initiated in other currencies translated to U.S. dollars using year-end exchange rates for the balance sheet and weighted average exchange rates for the statements of operations. Equity transactions were translated using historical rates. Foreign currency translation gains or losses as a result of fluctuations in the exchange rates are reflected in the Statement of Operations and Other Comprehensive Income (Loss).

Therefore, the translation adjustment in our consolidated financial statements represents the translation differences from translation of our financial statements. As a result, the translation adjustment is commonly, but not always, positive if the average exchange rates are lower than exchange rates on the date of the financial statements and negative if the average exchange rates are higher than exchange rates on the date of the financial statements.

During the quarter ended June 30, 2014 we recognized a foreign currency translation gain of \$296,436. By comparison, during the quarter ended June 30, 2013 we recognized a foreign currency translation loss of \$110,033. The gain was the result of the strengthening of the U.S. dollar against the Canadian dollar.

Total Comprehensive Income

For the foregoing reasons, we realized total comprehensive income of \$2,517,142 during the quarter ended June 30, 2014 compared to total comprehensive income of \$1,503,951 during the quarter ended June 30, 2013.

Liquidity and Capital Resources

As of June 30, 2014 we had total current assets of \$24,023,119 and total assets of \$29,422,023 including cash and cash equivalents of \$4,570,088. At June 30, 2014 total liabilities were \$5,093,377, all of which were current liabilities.

During the three months ended June 30, 2014 cash was primarily used to fund operations. See below for additional discussion and analysis of cash flow.

	Three months ended June 30, 2014	Three months ended June 30, 2013
Net cash provided by operating activities	\$ 1,067,901	\$ 958,602
Net cash used in investing activities	(1,147,274)	(33,150)
Net cash provided by financing activities	78,870	-
Effect of exchange rate changes on cash	113,917	56,929
Net increase in cash	<u>\$ 113,414</u>	<u>\$ 982,381</u>

Net cash provided by our operating activities was \$1,067,901. As discussed above, during the three months ended June 30, 2014 we realized an increase in net income, which also resulted in an increase in cash. This increase was partially offset by decreases in cash resulting from a 4% increase in inventory and a 36% increase in accounts receivable. Inventory grew during the three months ended June 30, 2014 to accommodate growing sales, but may ebb and flow from quarter to quarter, based on our supply chain capabilities and lead times, as well as our forecasts for future demand. Accounts receivable were higher due to our increased sales in the most recent quarter.

During the three months ended June 30, 2014 net cash used in investing activities was \$1,114,124 higher compared to the three months ended June 30, 2013. This increase in cash used in investing activities is largely attributable to the renovation of recently acquired space at our facilities in Lindon, Utah, as well as the purchase of trucks for our sales and service teams during the three months ended June 30, 2014.

As a result of the increase in cash provided from operations, the increase in net cash used in investing activities and the strengthening of the U.S. dollar, we realized a \$113,414 net increase in cash during the quarter ended June 30, 2014 compared to an \$982,381 net increase during the quarter ended June 30, 2013.

Summary of Material Contractual Commitments

The following table lists our significant commitments as of June 30, 2014.

	<u>Total</u>	<u>Less than 1 year</u>	<u>1-3 years</u>	<u>3-5 years</u>	<u>More than 5 years</u>
Contractual Commitments					
Consulting Agreement – Al Johnson	<u>\$ 3,900,000</u>	<u>\$ 400,000</u>	<u>\$ 800,000</u>	<u>\$ 800,000</u>	<u>\$ 1,900,000</u>
Total	<u>\$ 3,900,000</u>	<u>\$ 400,000</u>	<u>\$ 800,000</u>	<u>\$ 800,000</u>	<u>\$ 1,900,000</u>

Item 3. Quantitative and Qualitative Disclosure about Market Risk

As a smaller reporting company, as defined in Rule 12b-2 promulgated under of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide this the information requested by this Item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Exchange Act). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management's Remediation Initiatives

We will continue to monitor and evaluate the effectiveness of our disclosure controls and procedures and our internal control over financial reporting. However, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

In addition to the other information set forth in this quarterly report on Form 10-Q, you should carefully consider the risks discussed in our annual report on Form 10-K for the year ended March 31, 2014, which risks could materially affect our business, financial condition or future results. These risks are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 26, 2014, the SEC declared effective our registration statement on Form S-1 (File No. 333-196462). The registration statement related to 6,000,000 shares of our common stock; 4,500,000 shares were sold by the Company and 1,500,000 shares were sold by certain selling stockholders. On July 2, 2014, we sold 4,500,000 shares of our common stock at the price of \$4.00 per share, for an aggregate sale price of \$18,000,000. The selling stockholders sold 1,500,000 shares of common stock at a price of \$4.00 per share, for an aggregate sale price of \$6,000,000. Maxim Group LLC and Chardan Capital Markets, LLC acted as the Joint Book Running Managers for the offering.

The underwriters had a 45-day option to acquire an additional 900,000 shares of common stock from the selling stockholders at a price of \$4.00 per share, for an aggregate sale price of \$3,600,000, which they exercised on July 28, 2014. Following the sale of these shares, the offering terminated.

We paid \$1,260,000 in underwriting discounts and commissions in connection with the offering of the shares sold on our behalf. We also incurred approximately \$310,000 of other offering expenses. The net offering proceeds to us, after deducting underwriting discounts and commissions and offering expenses paid by us, was approximately \$16,430,000.

None of the underwriting discounts and commissions or offering expenses were paid, directly or indirectly, to any of our directors or officers or their associates or to persons owning 10% or more of our common stock or to any affiliates of ours.

We expect to use the proceeds from this offering for expansion of our sales and service team to match the demand for our product in regions where recent legislation passed, requiring the use of our technology, and for other working capital purposes. We may also use a portion of the net proceeds to fund possible investments in, or acquisitions of, complementary businesses, solutions or technologies. We have no current agreements or commitments with respect to any investment or acquisition. In addition, the amount and timing of what we actually spend for these purposes may vary significantly and will depend on a number of factors, including our future revenue and cash generated by operations and other factors. Accordingly, our management will have discretion and flexibility in applying the net proceeds of this offering. Pending any uses, as described above, we intend to invest the net proceeds in high quality, investment grade, short-term fixed income instruments which include corporate, financial institution, federal agency or U.S. government obligations.

Item 6. Exhibits

Exhibits. The following exhibits are included as part of this report:

- Exhibit 1.1 Underwriting Agreement with Maxim Group LLC and Chardan Capital Markets, LLC dated June __, 2014 (incorporated by reference to the Company's Amendment to its Registration Statement filed on Form S-1/A with the Commission on June 24, 2014 (File No. 333-196462)).
- Exhibit 10.1 Lease Agreement dated May 16, 2014 between the Company and Dennis Caka (incorporated by reference to the Company's Registration Statement on Form S-1 with the Commission on June 2, 2014 (File No. 333-196462)).
- Exhibit 10.2 Lease Agreement dated May 16, 2014 between the Company and Paul Hall (incorporated by reference to the Company's Registration Statement on Form S-1 with the Commission on June 2, 2014 (File No. 333-196462)).
- Exhibit 31.1 Certification of Principal Executive Officer Pursuant to Rule 13a-14(a)
- Exhibit 31.2 Certification of Principal Financial Officer Pursuant to Rule 13a-14(a)
- Exhibit 32.1 Certification of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350
- Exhibit 32.2 Certification of Principal Financial Officer Pursuant to 18 U.S.C. Section 1350
- Exhibit 101.INS XBRL Instance Document
- Exhibit 101.SCH XBRL Taxonomy Extension Schema Document
- Exhibit 101.CAL XBRL Taxonomy Extension Calculation Linkbase Document
- Exhibit 101.DEF XBRL Taxonomy Definition Linkbase Document
- Exhibit 101.LAB XBRL Taxonomy Extension Label Linkbase Document
- Exhibit 101.PRE XBRL Taxonomy Extension Presentation Linkbase Document

SIGNATURES

In accordance with Section 12 of the Securities Exchange Act of 1934, the registrant caused this report to be signed on its behalf, thereunto duly authorized.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934

I, Brenton W. Hatch, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Profire Energy, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

- a) Designed such disclosure controls and procedures or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
- d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal controls over financial reporting; and

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
