

# PRO8 FUEL TRAIN SERIES

**EFFICIENCY. CONSISTENCY. FLEXIBILITY.**

The PRO8 Series of pre-assembled fuel trains has been designed to make it easy to get the results you need. We have engineered a powerful yet simple solution that, when paired with a Profire BMS controller, will offer you the control, safety, and reliability you expect.

## CORE APPLICATIONS

- GAS PRODUCTION UNIT
- HEATED TANK
- SEPARATOR
- GLYCOL DEHYDRATOR
- AMINE REBOILER
- FWKO (FREE WATER KNOCK OUT)
- TREATER
- LINE HEATER
- SALT BATH HEATER

## WHY THE PRO8-FT SERIES?

### REDUCE COST & COMPLEXITY

- Mechanically and Electrically Pre-assembled
- Factory Function Tested
- Simplified Field Installation

### INCREASE EFFICIENCY

- Plug and Play Solution
- Build/Specification
- Painless Procurement

### FLEXIBLE CONFIGURATION OPTIONS

- Designed for applications up to 5MM BTU/hr
- 24VDC / 12VDC low power
- Left or Right inlet designs
- Mounting options to support your application
- PF2200, PF2100, PF3100 Compatible
- PR08 Installation Kits
- PR08 Inlet Regulator Assembly

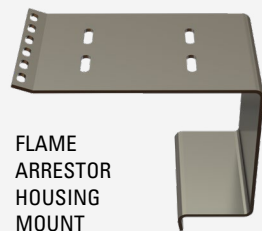

## MOUNTING OPTIONS

STAND MOUNT

CABINET MOUNT

FLAME ARRESTOR HOUSING MOUNT

## BURNER MANAGEMENT IS WHAT WE DO

Work with a Profire expert to build *exactly* what your application needs.
